

David Eby 

AN ACTION PLAN FOR YOU

PROTECTING NATURE. TACKLING CLIMATE CHANGE.

John Rustad insists there's no climate crisis. He calls protecting BC's most-endangered nature "nonsense". We know he's wrong. It's why David Eby's BC NDP team is taking action right now, when it matters.

REDUCING CARBON POLLUTION BY TAKING ON THE BIGGEST POLLUTERS

Exceeding our 2025 methane reduction target, on track for a 75% reduction by the industry by 2030.

MOVING BC CLOSER TO ITS GOAL OF PROTECTING 30% OF PROVINCIAL LANDS BY 2030

Developing an ambitious, shared commitment to defend and preserve critical, at-risk areas, in participation with First Nations.

PREVENTING THE KIND OF FLOODING WE SAW IN THE SUMAS PRAIRIE IN 2021

Building climate resiliency into the widening of Highway 1 to Chilliwack.

PROTECTING AND RESTORING WATERSHEDS, WATERWAYS AND OLD GROWTH

Banning glyphosate (Round-Up) to protect watersheds and communities | Expanding salmon restoration in estuaries, inter-tidal zones, and spawning habitats | Completing 14 recommendations from Old Growth Strategy.

DEFENDING PEOPLE IN BC AGAINST THE THREAT FROM A CHANGING CLIMATE

Proactively moving highly-flammable prune stands and debris to slow or stop the spread of wildfires and protect primary water sources for communities.
